

TAP CLEANER

CORRECT CLEANING & CARE

PROFESSIONAL CARE FOR TAPS!

In the bathroom you want everything to shine, but the common sanitary cleaners often affect taps and fittings. Indeed, the taps are thoroughly clean afterwards, but there is always a risk of having damaged the gasket and components (e.g. valves and cartridges). Often aggressive cleaners are the reason for complaints. Therefore we recommend our Tap Cleaner for the correct cleaning and care. Limescale and deposits will be removed gently without harming the surrounding ceramic and enamel surfaces. Thus preserving the value of the sanitary objects for a long time.
